Message from the Chief Justice of the High Court of Shan State

The 2024 Court Annual Report could be successfully published for Year 2 action plan (2024) of the five-year Judicial Strategic Plan (2023-2027) of the Myanmar Judiciary, which has been implementing with the slogan “Providing Justice by all”. As mentioned annually, the main objective of issuing court annual report is to realize by the public about the performance of the court, which is playing a pivotal role in the Judiciary.

There is a time-honored legal maxim that “It is not enough that justice is to be done, it must also be seen to have done”. To date, the public has a right to know not only the judgment of the Court but also its performance. It is also pointing towards the judicial accountability in some way. Only when the public is understandable the mechanism, activities, progress and necessities, will they have clear consciousness upon the Judiciary. Then the public trust and confidence will be gained.

Since the Case Management Program has been implemented to reduce the delayed cases and to build public trust and confidence in the judiciary, the backlog of criminal and civil cases, including criminal cases tried by Special Benches in 2024, has been reduced noticeably, and it was a milestone achievement of the courts at different levels in Shan State.

In the Shan State High Court, four Judges including the Chief Justice, have being completed expeditiously the original civil and criminal cases and appeals/ revisions attended against the judgments, decrees, orders passed by subordinate courts.

Since 1.8.2022, the Shan State High Court had been implementing a Court-led Mediation system, and by being able to resolve specific types of litigation efficiently in a short period of time. There were (161) referrals in the period of one year, and there were (2) unfinished cases last year, totaling (163) cases, and (69) negotiations were completed. From

1.1.2024 to 31.12.2024, 69 out of 163 cases referred to the Mediation Department were succeeded, the percentage of success was 31.88% of the total cases.

The training programs provided by the Shan State Court to be able to enhance the capacity of judicial officers, judges, and staff of the Shan State High Court and Courts at all levels, are described in the Annual Report.

In addition, the announcements regarding judicial performance including the cause lists for the hearing, the lists of the cases of which the judgements are to be delivered, the activities of the judicial offices and bench-sitting are being uploaded and regularly updated in the website of the Shan State High Court for public.

Uprightness of the Judiciary cannot be achieved by goodness of a single and of an institution. We firmly believe that the task can only be done by efforts made out by all. Hopefully, observing this Report will reach an understanding in some extent upon the endeavor of the Myanmar Judiciary stepping towards the improving justice for all.

Therefore, I would like to urge all judges and court staffs from the High Court and the Courts at all levels in the State to think about their weaknesses and advantages, and work diligently with all their abilities to ensure justice for the public.
